PROFESSIONAL SUMMARY

<<< 6+ years of software work experience (5 years in Wipro, 2 years in Ashland, currently in Maternity break) >>>

- Took time away from professional career to raise young children and manage the household.
- During the break I utilised my time in honing my technical skills as per the current market standards. Also worked as a teacher in the meanwhile which helped me in getting back to work culture, made me punctual,organized and patient enough to deal with the happenings.
- With necessary technical skills and personality development I am foresseing that I can do much better work for the organization that I would work for.

- Having progressive experience in analysis, design and testing of Web development projects and Sharepoint applications.
- Technology with good hands on experience on HTML,CSS,Javascript,React,Microsoft Office InfoPath, Nintex, Sharepoint OOTB, Metalogix, K2.
- Having a short term experience to work with customer closely at Onsite (Basel, Switzerland) on a SUPPORT project.
- Hands on experience in project management, team scheduling, reviews, escalation and reporting to the management.
- Exposure on content deployment in SharePoint 2013,Javascript,Metalogix
- Have good knowledge of SDLC
- Skilled in understanding and preparing FSD and design documents.
- Conducted several KT sessions to new joiners and prepared KT documents.

- Worked as a lecturer for Bio-physics at RBVRR women college (2009-2010) and as a teacher in The Global Edge Schools (2022-2023).

SKILLS

Web Technologies: HTML,CSS, Javascript,React, Infopath 2010

Software Tools: Microsoft Office, Nintex, Quest Migrator,Metalogix,k2

EXPERIENCE

Project Name: Ashland Portal (Web Developer)
Ashland, Hyderabad

Ashland would like to have a portal which will be accessed globally. Site should have Highlights, What's New, Events and Leaders speak and Awards, etc. on the home page. Having a separate site for each department should have department wise updates.

- Designed master pages and page layouts using React framework.
- Created global navigation menu and created different layouts for department sites using React.
- Taken project deployment responsibilities in Development and Production environments. Supported developed application.

Project Name:TechOps (SharePoint Specialist/Lead)
Wipro Technologies,Hyderabad

Novartis is one of the leading pharmaceutical companies which planned to migrate all its databases from Lotus Notes to SharePoint 2010.This project includes data migration, for achieving this Quest Notes migrator is used. Jobs are created by mapping all the fields of Lotus Notes to SharePoint. There was great applause from the customer for the success of the project.

We took over the project from other competitor for Novartis Pharmaceuticals because of the excellent showcase of the work and the deadlines that are achieved.. This is a very large deal in its kind and has been creating a lot of business till today due to the customer contact we established during our stay at onsite.

- Played a role of SharePoint Analyst, worked closely with the customer.
- Made the customers understand the process, gave knowledge sharing sessions to other team members about the process of work and standards.
- Helped other team members when there are challenges.
- Won lot of appreciations for the work form the customer and other onsite members
- The methods designed by our team in the project were taken as basics for other support projects.
- Maintained the SharePoint 2013 site (Ticketing tool).

Project Name:CAT3 - Lotus Notes to SharePoint Migration (Team Member)
Wipro Technologies, Hyderabad

Novartis is one of the leading pharmaceutical companies which planned to migrate all its databases from Lotus Notes to SharePoint 2010. The migration process includes both data and functional migration. For data migration, a third party tool called Quest Notes Migrator, wherein jobs are created by mapping all the fields of Lotus Notes to SharePoint. For achieving the functional migration, Web parts, Microsoft Office InfoPath 2010/VSTA coding and Nintex/ Sharepoint Designer workflows are used.

- Played a major role in migrating the databases.
- Thoroughly coordinated with the onsite counter-parts in finalizing and achieving the functionality.
- Handled individual databases and won appreciation from the customer.
- Done POC's to achieve functionalities, which is used all over the project.Helped other team members when there are challenges.
- Fixing the issues raised in the code

EDUCATION

Degree	Institution	Percentage
B.Tech	Sreenidhi Engineering College	80.0
Intermediate	Sri Chaitanya Junior College	94.8
SSC	St. Anthony's High School	85.0

AWARDS:

I received 'Star Performer', 'Most Valuable Player', 'Catalyst', 'Harbinger' etc awards at various occasions at Wipro recognising my efforts in different projects in achieving the deadlines and for the several commendations received from the customers.

Also received various commendations from customers and other team members both at Onsite and Offshore for the contribution at Onsite (Basel).
